Sounds good. We looked for Michael Sivak's FS comments and there are some on Appendix B, but we didn't find any on the main FS report July 31 version. He commented on the previous version.

Okay, thanks for sending Mike C and Rachel's comments.

I think it would be beneficial to send them, and Michael Sivak, the redline-strikeout I plan to send you later today (hopefully!), particularly since the alternatives have changed somewhat since the last draft of the FS was submitted. I am also making changes regarding how we refer to the ARS values, and the names of the alternatives themselves.

Stephanie

Betsy and Supinder,

I reviewed the hydro-relevant response to comments, and the responses are adequate.

I also reviewed the red-line text, which is generally in line with RTC's. Some typos, but no further comments.

-Rachel

Hi Rolling Knolls Project Team,

Please see the following email and attachments with FS revisions and responses to our comments. Please check to see if your comments were adequately addressed and if the revisions are acceptable. We are working towards getting the Proposed Plan issued soon, so we would like to finalize the FS ASAP. If at all possible, **please let me know if the revisions and responses are okay no later than August 10th.**

Thanks and please contact me with any questions. - Betsy

Subject: Rolling Knolls - revised draft FS Report

Betsy, Supinder, and Stephanie - the revised draft Feasibility Study Report for Rolling Knolls is attached for your review. This email includes:

- The revised text, with changes in red-line/strike-out;
- Revised Figure 1-2 (shows lay down area);
- Revised Figure 6-2 (shows the location where the blue-spotted salamander was observed);
- Revised Tables 6-1 and 7-1 (show the new scoring where all scores are in words, not numbers); and
- Responses to USEPA and NJDEP comments.

Please let me know if you have any questions.
